

# Riparian Health

## Assessment Training

# ☉ Cows & Fish

## June 9 & 10, 2010

**ATTENTION: Alberta First Nations Tribal Councils, Lands Managers,  
Environmental Managers & Environmental Portfolio Holders**

Participants in the two day workshop will gain further understanding about riparian areas, how they function, strategies for managing them for their best potential and a thinking pathway to address issues. Participants will also be introduced to the method of riparian health assessment for measuring and monitoring current riparian condition.

Training to be held @ **Whitefish/Goodfish Lake First Nation**

8:30 am - 4:30 pm Daily - GFL Daycare

## Topics
